WORK EXPERIENCE

Matheson

Oct. 2021 – Present

Systems Developer (ERP & Application Development) | Nov. 2023 – Present

Waverly, TN

- Matheson's ESG division produces and supplies electronic and specialty gases to customers across the globe.
- As a System Developer, I scoped, designed, developed, tested, deployed, and trained users on a new order and asset management system used by our division across the United States. This required working with every key stakeholder throughout the order/asset lifecycle, understanding the process, and translating that into system processes.
 - **Key Results:** consolidated disparate systems, data integrations, process controls, inventory & order management, data visualizations.
 - **Stack:** TrackVia (Low-Code Development Environment); Java scripting (Groovy); Workato (API Integrations & Automation)

IT Specialist | Oct. 2021 – Nov. 2023

- As an IT Specialist with Matheson, I worked to ensure seamless operations of all the different technologies on site while learning about the gas manufacturing industry. This included troubleshooting a wide range of devices and managing large upgrade projects, including completely overhauling the local security system. I became familiar with legacy systems and identified opportunities for improvement using my technical skillset.
 - **Key Results:** physical network expansion project (fiber, ethernet); insourcing the local security system; developing a local website for barcode printing; developing a local website for environmental waste tracking; supporting and troubleshooting Gas Chromatography systems including communication issues between instruments and software
 - **Technology Stacks:** Wisenet Wave; CCURE 9000; Visual Studio; C#; ASP.NET; SQL Server; HTML; CSS; JavaScript; Sato Barcode Programming Language (SBPL); GitHub

uBreakiFix

Dec. 2019 – Oct. 2021

Lead Electronic Repair Technician

Franklin, TN

- uBreakiFix is a national technology repair franchise that partners with insurance companies to provide repairs as well as handling private 3rd party repairs. In the role, I handled customer questions, repair cost/timeframe estimation, parts sourcing, and repair completion.
- After the pandemic began, I started to primarily work as a mobile repair technician that drove to customer locations and performed the repairs on-site from our mobile repair vehicle.
- **Certifications:** Apple certified repair technician, Samsung certified repair technician, Google certified repair technician

EDUCATION

Middle Tennessee State University

Aug. 2021

B.S. Computer Science

Murfreesboro, TN

CERTIFICATIONS, SKILLS & INTERESTS

- **Certifications:** TrackVia Advanced Administrator
- **Technologies:** C#, ASP.NET, SQL, React, HTML, CSS, JavaScript, Git, Excel
- **Skills:** System Optimization, Third-Party Integrations, Requirements Analysis, Independent & Team Collaboration, Problem-Solving & Troubleshooting
- **Interests:** Chess; Gardening; Traveling; Video Games; Reddit
